

THE ROYAL FAMILY

TESTIMONIALS

"When I was asked to give you a testimonial about ROYAL, I was very excited to do so and here is why. We have used Super Select 10W40 in all of our 55 units for the past 10 years. Of these 55 units, 20 or so are police cars. Ever since we have been on ROYAL SS 10W40 we have never lost an engine due to oil failure, and as you know, that is a very important unit to keep on the street. We also have many of our Heavy EDP using the Rozep 46, and Rozep 68, for all of our hydraulic needs. We have had great success with all of the products that we have used in the ROYAL line. All of our garbage trucks use the ROYAL hydraulic fluids, and Diesel Supreme Premium Plus 15W40, and also no engine failure in any of these units. I would recommend everyone to use ROYAL because it works."

– Mike Parkey
City of Portales, New Mexico

"I would like to take the time to personally thank the team at Royal for helping us with our switch to synthetic oils and extended service drain intervals. This has been instrumental in many ways by helping us improve the efficiency of our operation and reducing our overall cost of maintenance. They have also been involved with oil sample testing on our fleet to ensure reliability and sustainability was delivered. Thanks again!"

– Jon Harshman
City of Schertz / Public Works

ABOUT US

AXEL ROYAL LLC (formerly ROYAL Mfg. Co.) has over 100 years as a leading manufacturer and marketer of lubricants and greases made in the USA. Our Royal Branded line of lubricants has been extending the life of your equipment for over a century. As a registered ISO company, we manufacture hundreds of different types of lubricating oils and greases by utilizing biodegradable, synthetic, and mineral base oils for all types of applications.

AXEL works successfully with many of the leading lubricant companies around the world and has become the largest independent manufacturer of lubricating greases in the European market, with a prominent presence in the US market since 2011.

GREASE TYPES

- Calcium Sulfonate
- Aluminum Complex
- Polyurea
- Lithium Complex
- Biodegradable
- Synthetic
- Clay Based
- Simple Soaps

OUR VALUE

- Over 100 Years Experience
- 60 Million Pound Annual Throughput
- 7 Million Gallon Tank Farm Capacity
- Private Label Program
- On-Site R&D Team
- Global Distribution

ADVANCED ISOGOLD™ TECHNOLOGY

Royal's Advanced ISOGOLD™ Technology is a proprietary blend of high performance additives engineered to protect and lengthen the life of equipment.
