## CD 880

### GENERAL PURPOSE CLEANER

An excellent cleaner for hard surfaces not ordinarily damaged by water. Cuts through dirt, grease, soil, surface smears and finger marks with ease.

#### APPLICATION & PERFORMANCE

Countertops, finished wood, copy machines, windows, vinyl, metal fixtures, chrome, leather, truck and car interiors, laminates

- Works on all surfaces
- VOC compliant
- Streak-proof formula

SKU	SIZE
SC0880000	19 oz/538 g Aerosol *

## CD 1087

### NEUTRAL ALL-PURPOSE CLEANER

Specially formulated no-rinse neutral cleaner with a citrus fragrance. Contains non-ionic surfactants, water-soluble degreasing agents, water softeners and buffering agents. Effectively removes soil from coated floors without affecting the finish.

#### APPLICATION & PERFORMANCE

Damp mop, automatic scrubber, spray bottle, wall washer, sponge, general light to moderate duty cleaning

- Requires no rinsing
- Works effectively in both hard and soft water
- Contains no harsh alkalis, phosphates, solvents or abrasives

GLASS CLEANERS

**CD888**

HEAVY DUTY NSF C1 H<sub>2</sub>F<sub>2</sub>R<sub>0</sub> ~~STREAKS~~ pH 7.0

### GLASS CLEANER

Foaming, streak-proof formula removes smoke, grease and grime. Fingerprints, smudges, dust, road film and surface smears can be wiped away easily. Fast-acting and can be used on any hard surface not normally harmed by water.

#### APPLICATION & PERFORMANCE

Windows, mirrors, showcases, countertops, painted walls, windshields, chrome, tile, vinyl upholstery

- Non-ammoniated
- Removes heavy smoke build-up
- VOC compliant
- Foaming action eliminates runs on vertical surfaces

### HEAVY DUTY CITRUS DEGREASER

Non-chlorinated formula has the cleaning power of solvents to remove grime, dirt, grease and oil. An outstanding, biodegradable cleaner for many applications, including prior to painting. Leaves a refreshing, citrus scent.

#### APPLICATION & PERFORMANCE

Tools, equipment, concrete floors, walls, formica, fiber glass, wood, ceramic tile, aluminum, glass, some plastics

- Biodegradable, non-toxic
- No chlorinated solvents
- Citrus scent
- Dielectric strength 40.4 KV

## MULTI-PURPOSE CLEANER

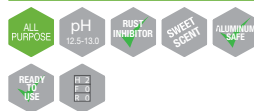

Multisurface cleaner that is ready-to-use and is ideal for interior and exterior all-purpose cleaning projects. Removes dirt, grease, grime, soap scum, heel marks and fingerprints from most washable surfaces. NOTE: Not recommended for glass, non-urethane finishes or aluminum.

### APPLICATION & PERFORMANCE

Appliances, counter tops, cabinets, tubs, basins, ceramic tile, woodwork, doors, cars, boats

- Rust inhibitor
- Leaves a clean, sweet scent
- Non-flammable

# CD 1216

SKU	SIZE
SC1216TL0	32 fl oz/946 mL Liqui-Sol™ Non-Aerosol Trigger Spray ✚

## READY TO USE HEAVY DUTY DEGREASER

Can be used in any no-rinse and wipe operation. Efficiently removes solvent marker stains, pen ink, soap scum, smoke and carbon films, food stains and residue, black heel marks and other difficult to remove greasy soils.

### APPLICATION & PERFORMANCE

Most washable surfaces including floors, walls, stainless steel, fiberglass, chrome, porcelain, plastic, laminate, vinyl enamel

- Lemon scented
- Removes many difficult and persistent stains, dirt, and grime

HEAVY DUTY    pH 11.7    ~~ADDED FRAGRANCES~~    NO RINSE    ~~ADDED DYES~~    H F O R O    NSF A1

### NEUTRA-FORCE™ HEAVY DUTY FOAMING DEGREASER

Delivers fast and effective cleaning on a variety of industrial soils. Contains no caustics, alkali, phosphates or silicates. Powerful foaming action clings to surface and effectively breaks down contaminants for effortless removal.

#### APPLICATION & PERFORMANCE

Heavily soiled machinery, heavy equipment, motors and tools, removes hand prints, scuff marks, grease spots, soot stains, smoke film

- Fast and effective removal of heavy soils
- No rinsing necessary
- Safe for use on metals, finishes, plastic, rubber and other surfaces

SKU	SIZE
SC1201000	19 oz/539 g Aerosol *

## CD 1202

### INDUSTRIAL CLEANER & DEGREASER

Non-ionic cleaner and degreaser with corrosion inhibitors, grease cutting materials, and water softening agents for outstanding soil removal and exceptional hard water stability. Wetting and penetrating properties of this buffered cleaner enhance the removal of difficult soils.

#### APPLICATION & PERFORMANCE

Resilient tile, terrazzo, marble, ceramic tile, slate, cement, leather, plastic, upholstery, painted walls, woodwork, dumpsters

- Removes heavy grease and soils
- Effective for use in pressure washers and steamers

SKU	SIZE

## CD 1219

### WATER-BASED CITRUS DEGREASER

Dilutable with water. Suitable for removing grease, soap films, ink, adhesives, oil, tar and tar stains. Safe to use on hard surfaces such as metal, vinyl, formica, fiberglass, finished wood, porcelain, and painted surfaces.

#### APPLICATION & PERFORMANCE

Machinery, sinks, toilets, dumpsters, lockers, garbage disposals, tubs, showers, exhaust fans, tools, chrome fixtures, painted wall, carpets, upholstery

- Water-based d'Limonene cleaner and degreaser
- Powerful cleaning with an orange fragrance
- Contains no caustics, acids or harsh chemicals

SKU	SIZE
SC1219TL0	32 fl oz/946 mL Liqui-Sol™ Non-Aerosol Trigger Spray * *
SC1219010	1 gal/3.78 L Bulk *

## CD 1228

### HIGH PERFORMANCE CITRUS CLEANER & DEGREASER

Non-acid, non-caustic, 100% active cleaner, degreaser and deodorizer; chemically derived from orange oil, providing a citrus scent. Multi-purpose formulation removes soils which are normally cleaned by high pH cleaners or dangerous solvents.

#### APPLICATION & PERFORMANCE

Drains, machinery, equipment, engines, carpet, hard surface, restroom, ceramic tile, dumpsters, septic tanks, sewage plants

- Natural d'Limonene degreaser
- Non-acid, non-caustic, cleaner, degreaser and deodorizer
- Unclogs drains, degreases machines, removes adhesives and gum

CD887 Coil & Fin Cleaner	Butyl	Foamy White	Ammonia
CD889 Cleaning Wax & Soil Repellant	Carnauba	Translucent White	Ammonia

**FROM LIGHT DUTY CLEAN UP JOBS TO ALL-PURPOSE FLOOR CLEANERS, FROM POWER WASHERS TO HEAVY GREASE BUILD-UP, THERE IS A SPRAYON CLEANER THAT WILL MAKE YOUR JOB EASIER.**

SPECIALTY

**CD 885**

ALL PURPOSE
NSF C1
H1 F2 R0
pH 10.4

**STAINLESS STEEL CLEANER**

Cleans, polishes, brightens and protects stainless steel and other metal surfaces, such as chrome and aluminum. Water spots, spills, food soils, and oil-based stains are easily removed. Polishes to a non-greasy film. Invisible coating resists further soiling, fingerprints, watermarks and rusting.

**APPLICATION & PERFORMANCE**

Restaurant and food processing equipment, hospital, dental and medical equipment, elevators, counters and displays, laundry equipment, drinking fountains, autos, trucks, trailers

- Cleans, shines, and protects
- Good for aluminum, porcelain and ceramic tile
- Water based emulsion formula
- Resists fingerprints, water marks, corrosion and rusting

## CD 887

### COIL & FIN CLEANER

Heavy duty, water-based foaming coil cleaner designed to remove stubborn grease, grime and chloride buildup that accumulates on refrigeration and A/C coils. Foaming and penetrating action ensures proper coverage and cleaning of finned areas. Routine cleaning of coil surfaces will aid in maximizing operating efficiency.

#### APPLICATION & PERFORMANCE

Refrigeration coils, coolers, A/C condenser coils, freezer engines, HVAC units, motors, other machinery

- Foaming and penetrating cleaning action
- Removes chloride build-up
- Non-flammable and non-corrosive
- Safe on all types of metal

SKU	SIZE
SC0887000	18 oz/510 g Aerosol *

## CD 889

### CLEANING WAX & SOIL REPELLANT

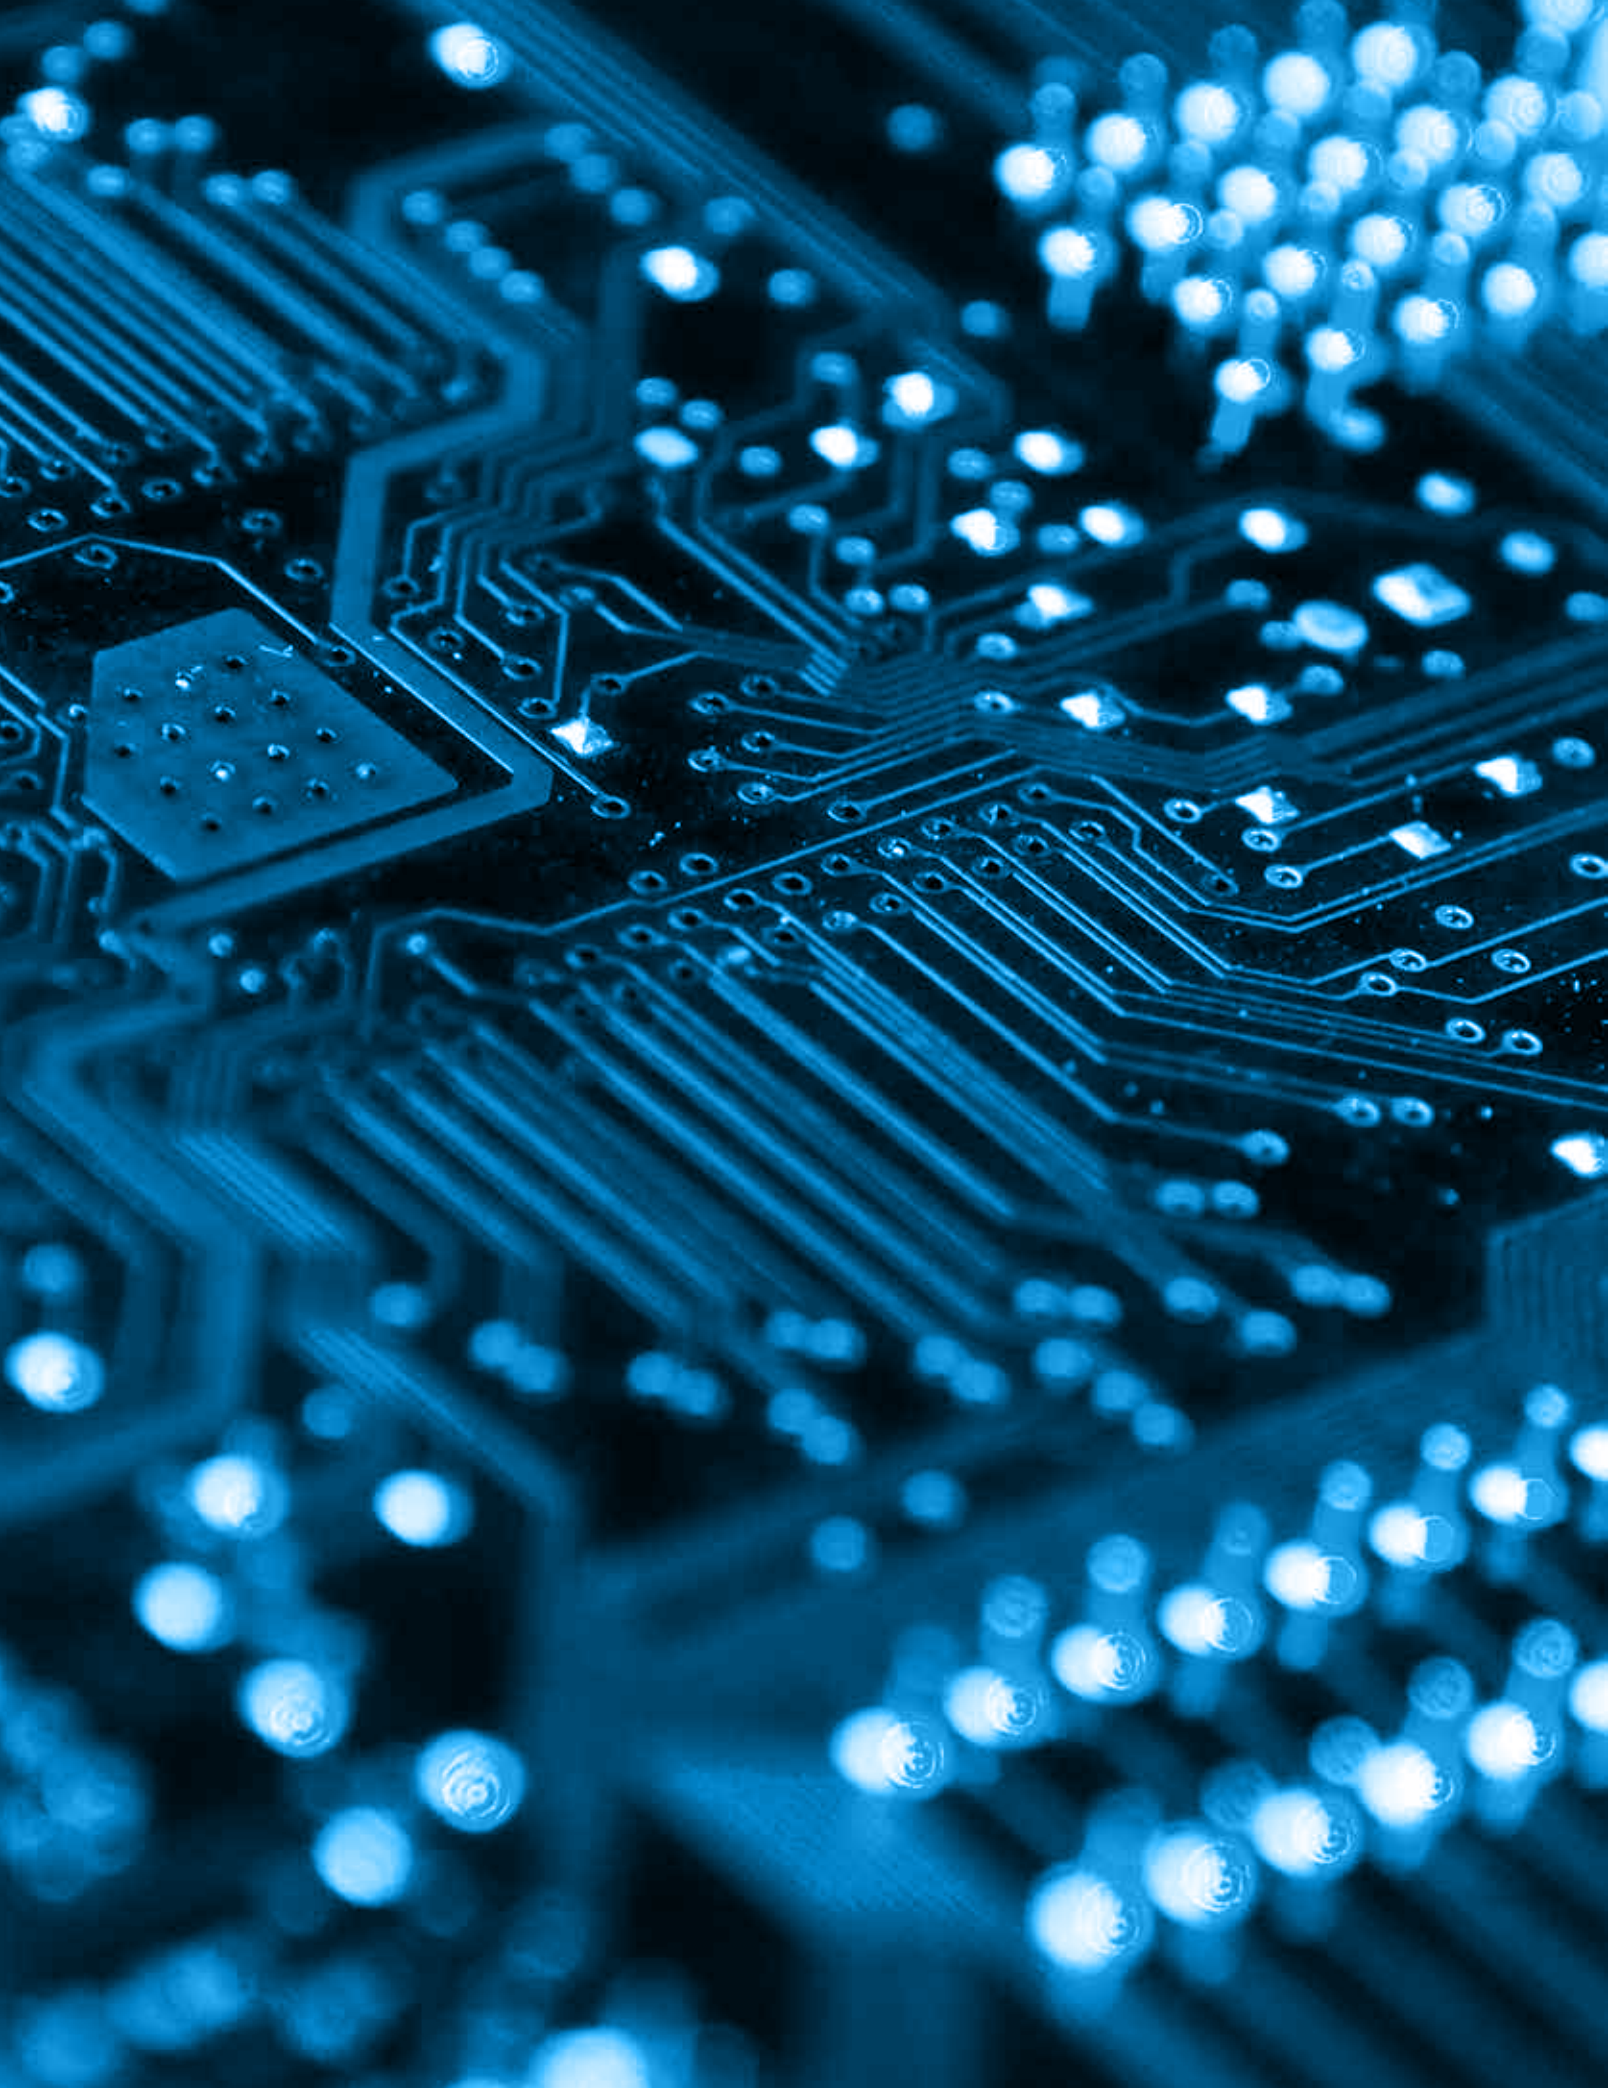

Lifts debris from any non-porous surface by utilizing an array of cleaning lubricants. After use, the surface is left with a highly polished coat of Carnauba wax that repels oxidation and other contaminants. Saves time while minimizing the use of water and other resources.

#### APPLICATION & PERFORMANCE

Can be used for/on automobiles, trucks, RV's, boats, airplanes, all metal surfaces, fiberglass, painted surfaces, stainless steel

- One step clean and polish with a special blend of Carnauba wax and cleaning lubricants
- Repels and prevents build up of industrial soils
- Minimizes water use
- Safe on painted and metal and surfaces

\*Dielectric Strength is the maximum electric field that a material can withstand without breaking down, at which time it would strike an arc. Measured in kilovolts (KV). It important to consider when spraying on live circuits.

ELECTRICAL DEGREASERS

### ELECTRIC MOTOR DEGREASER

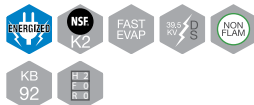

Instantly penetrates and removes dirt, oil, grease, wax and moisture from electrical equipment and machinery. Formulated to clean and degrease electrical equipment that is energized or when there is a residual electrical potential from a component such as a capacitor. Evaporates completely, leaving no residual film. Equipped with an extension tube for hard-to-reach areas.

#### APPLICATION & PERFORMANCE

Switches, relays, communicators, transmitters, tooling, antenna insulators, molds, motors, machinery and equipment, controls, printed circuits, gold and silver, fuse holders, oscillators, radar equipment

- Leaves no residue
- Dielectric strength: 39,500 volts
- Non-flammable, non-chlorinated

## EL703

SKU	SIZE
S00703000	19 oz/539 g Aerosol

### ELECTRICAL DEGREASER

Penetrates fast to remove dirt, oil, grease, wax and tar, leaving no residue. Equipped with a high delivery valve for cleaning efficiency and an extension tube for hard-to-reach areas. Contains no Class I or Class II compounds.

#### APPLICATION & PERFORMANCE

Relays, air tools, wire rope, gears, molds, sprockets, clutches, brakes, dies, locks, generators, chains, radar equipment, air conditioners, electric motors, material handling equipment

- Leaves no residue
- Use on non-energized equipment
- Replaces 1,1,1 trichloroethene

\*\*Always test on a small hidden area before use.

\*\*\*Heavy soils and grease on non-sensitive equipment require a degreaser with a higher solvency for ultimate cleaning power. Solvency is measured by Kb value. The higher the number value, the stronger the dissolving power of the cleaner. Degreasers usually have a higher Kb value than Electronic Precision Contact Cleaners.

## FLASH FREE® ELECTRICAL DEGREASER

Non-flammable, fast-evaporating cleaner that penetrates instantly to remove dirt, oil, grease, and wax. Increases the life of electrical components by removing foreign materials that can cause costly downtime. Degreases more thoroughly and several times faster than alkaline cleaners. Excellent for degreasing aluminum and cleaning sheet and strip steel prior to galvanizing.

# EL848

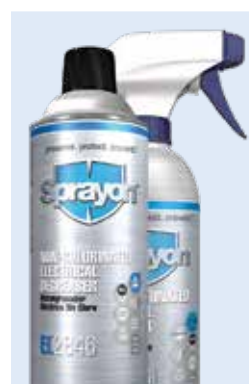

### APPLICATION & PERFORMANCE

Electric motors, generators, air tools, brakes, clutches, chains, sprockets, wire rope, dies, molds, relays, radar equipment, material handling equipment, air conditioners

### ELECTRO WIZARD™ NON-BROMINATED DEGREASER

Designed for superior worker safety. Non-flammable, plastic-safe, and fast-evaporating. Penetrates instantly to remove dirt, oil, grease, and wax. Equipped with a high-delivery valve for cleaning efficiency and an extension tube for hard-to-reach areas.

#### APPLICATION & PERFORMANCE

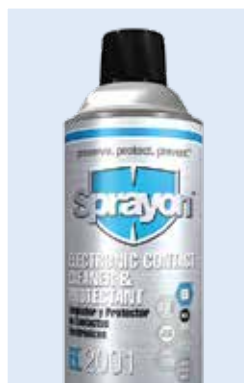

Cables, bearings, air compressors, cranes, electric motors, gears

- nPB and TCE free
- Heavy-duty use
- Dielectric strength 6,800

**EL2208**

SKU	SIZE
SC2208000	16 oz/454 g Aerosol

### ELECTRONIC CONTACT CLEANER & PROTECTANT

Designed to clean and degrease electrical equipment that is energized or when there is a residual electrical potential from a component, such as a capacitor. Instant solvent and cleaning action quickly removes greases, dust, and oxidation. Restores and maintains precision and original efficiency of electronic instruments and electrical equipment. Penetrates pores of surface, leaving a fine, microscopic film for protection against corrosion.

#### APPLICATION & PERFORMANCE

Switches, relays, timers, signals, transmitters, condensers, transistors, microphones, panel boards, circuit breakers, contacts, meters, receivers, speakers, coils

- Protects against corrosion
- Low-conductivity for use on energized equipment
- Eliminates noise due to dust and dirt

## PLASTICS SAFE CONTACT CLEANER

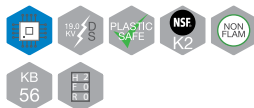

Fast-evaporating, non-flammable electronic and electrical cleaner that leaves no residue. This TF113 alternative is safe on all metals and most plastics. May be applied while equipment is operating. Equipped with an extension tube for pinpoint application.

### APPLICATION & PERFORMANCE

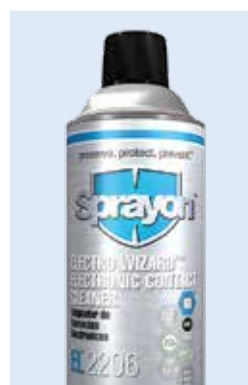

Computer systems and memory devices, printed circuits, meters, vacuum tube parts, hydraulic and missile fuel systems, relays and switches, office machines, electronic games, TV, radio, precision instruments, timing devices, telephone switch gears, radar equipment

- Alternative to TF113
- Leaves no residue
- Very fast evaporation rate

# EL2020

SKU	SIZE
S02020000	12 oz/340 g Aerosol

## ELECTRO WIZARD™ ELECTRONIC CONTACT CLEANER

Patented formula instantly removes, dissolves and rinses away foreign contaminants from sensitive equipment and precision instruments. Eliminates trapping of airborne contaminants and allows parts to be handled immediately.

### APPLICATION & PERFORMANCE

Printed circuits, relays & switches, meters, radar equipment, precision instruments, office machines, timing devices, hydraulic & missile fuel systems, satellite communication equipment, video equipment, computer systems, memory devices

- Residue free
- Alternative to HCFC – 141B
- Equipped with an extension tube for hard-to-reach areas

## CLEAR INSULATING VARNISH

Fast-drying, clear insulating enamel, characterized by outstanding oil, chemical, and abrasion resistance. This enamel provides a smooth, glossy surface which sheds dirt readily. May also be used for treating windings and mechanical components, used as an oil proof finish for field coils and stator windings and the inside walls of control boxes. Excellent flexibility and water resistance.

### APPLICATION & PERFORMANCE

Motor windings, sealing electrical and electronic components, switchboards, commutator ends, field coils, transformers, armatures, stator windings, rings and frames, bus bars

- Air dries in 10 minutes or less
- Resists oil, moisture, acids and alkalis

SKU	SIZE
SC0600000	15.25 oz/432 g Aerosol 🍁

**EL601**

## RED INSULATING VARNISH

Insulating spray for general coating, impregnating and insulating electrical and electronic work. Excellent adhesion to metals including windings and coils. Air dries faster than most insulating materials. Protects surface against oils, moisture, acid, and alkalis. Perfect for small field and magnet coils as it penetrates oil and new windings and has excellent flexibility and water resistance.

### APPLICATION & PERFORMANCE

Motor windings, sealing electrical and electronic components, switchboards, commutator ends, field coils, transformers, armatures, stator windings, rings and frames, bus bars

- Air dries in 10 minutes or less
- Resists oil, moisture, acids and alkalis

SC0601000	15.25 oz/432 g Aerosol 🍁
S60110000	1 gal/3.78 L Bulk

**EL609**

## GREEN INSULATING VARNISH

Creates an extra hard, tough surface that is oil-resistant and waterproof. Has high arc resistance and is non-tracking. A superior spray insulation for motor windings and electric components.

### APPLICATION & PERFORMANCE

Motor windings, sealing electrical and electronic components, switchboards, commutator ends, field coils, transformers, armatures, stator windings, rings and frames, bus bars

- Air dries in 10 minutes or less
- Resists oil, moisture, acids and alkalis

OTHER

**EL 2007**

**NON-FLAMMABLE DUSTER**

Pressurized, non-flammable gas that removes microscopic particles of lint, dust, ferrous oxide and other contaminants. Useful on delicate components and instruments where residual fluid entrapment could be a problem. Because there are no harmful solvents, it is safe on plastic.

**APPLICATION & PERFORMANCE**

Electronic equipment, optical equipment, photographic equipment, printers, laboratory equipment, computers, data equipment, mechanical assemblies

- Gently removes microscopic particles
- High delivery rate

SKU	SIZE
SC2007000	10 oz/284 g Aerosol 🇨🇦

## CIRCUIT COOLER

Instantly freezes small areas to -15.7°F to isolate thermal intermittent electronic components. Permits immediate detection of bad capacitor, transistors, oxidized joints and junctions.

### APPLICATION & PERFORMANCE

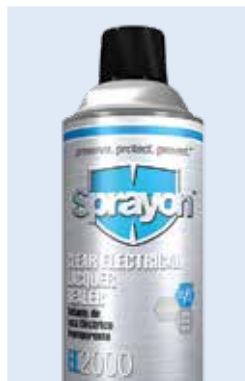

Solidifying molten solder, locating hairline cracks in printed circuit boards, shrink-fit assemblies, as a quick-freeze for laboratory, technical uses

- Detects hot spots
- Non-flammable
- Leaves no residue, high delivery valve

# EL2003

SKU	SIZE
S02003000	12 oz/340 g Aerosol

## CLEAR ELECTRICAL LACQUER SEALER

Seals electrical and electronic parts drying to a clear, flexible, removable film. Protects against rust, corrosion and tarnish. Resists fungus, chemicals, dirt and grease and has exceptional resistance to vegetable oils, mineral oils, greases, and chemical fumes. Dried film will withstand temperatures up to 150°F.

### APPLICATION & PERFORMANCE

Wiring installations, printed circuit boards, batteries, chrome and bright work, metal, wood and leather surfaces, ignition sealer

- Durable and removable film
- Fast drying
- Protects against rust, corrosion, tarnish, and abrasion

### ANTI-SEIZE COMPOUND

Combination of finely powdered metals that serve to protect against corrosion, seizure, galling, rust carbon fusion and galvanic pitting. This homogenized semi-synthetic lubricating grease will not melt and run out after application. Does not contain clay or soap base thickeners. Designed for preventative maintenance in marine, metal working, automotive, oil field, construction, mining, farm equipment and wastewater and sewage. Helps to reduce friction of metal surfaces.

#### APPLICATION & PERFORMANCE

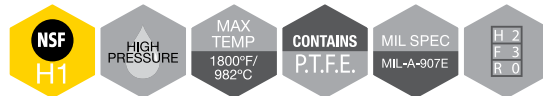

Threaded fittings, sprockets and chains, splines and worm gears, manifold studs and bolts, brake cams and pins, rig drives, casting equipment, winches, conveyors, valve shafts. Note: Not to be used with oxygen systems.

- Prevents seizure, galling, fusion
- Prevents corrosion

### FOOD GRADE ANTI-SEIZE COMPOUND

Premium synthetic, food grade, non-drying thread sealant and anti-seize compound formulated with a balanced blend of P.T.F.E. and other lubricating solids. Engineered to provide a superior leak-proof seal for the life of the connection; while at the same time maintaining its anti-seize capabilities, allowing for easy disassembly without thread damage.

#### APPLICATION & PERFORMANCE

Threaded fittings, sprockets and chains, splines and worm gears, manifold studs and bolts, brake cams and pins, rig drives, casting equipment, winches, conveyors, valve shafts, food processing equipment. Note: Not to be used with oxygen systems.

- Water & steam resistant
- Superior leak-proof seal
- Effective to 1800°F

DRY LUBRICANTS

### DRY FILM MOLY LUBRICANT

High solids, molybdenum disulfide coating that withstands high pressures. Bonds to all clean surfaces that are not alcohol or aromatic hydrocarbons, such as toluene or xylene. Results in a high performance, dry film lubricant that will perform when you need it.

#### APPLICATION & PERFORMANCE

Assembly and run-in lubrication, automotive and industrial gaskets, machine tool sliding surfaces and gears, tumbler locks, intricate mechanisms, mating surfaces or business machine parts, chutes and bins, bearings, chain drives, intricate mechanisms, roller chains, conveyor belts

- Withstands extreme pressures up To 50K PSI
- Non-conductive
- Low coefficient of friction

**LU200**

### DRY FILM GRAPHITE LUBRICANT

High-lubricity graphite that adheres to most surfaces with minimum surface preparation. Air dries rapidly at room temperature to provide clean, long-wearing lubrication. Conductive and may be used where lubrication and electrical properties are both required.

#### APPLICATION & PERFORMANCE

Pre-assembly lubrication of moving parts, mechanisms, automotive & industrial gaskets, bearings, locks, springs, hinges, mating surfaces on machines, plating nonconductors, curing ovens

- Dries rapidly
- Reduces friction and wear
- High temperature
- Conductive

## HIGH PERFORMANCE DRY LUBRICANT

Clean, non-oily, non-staining, versatile dry lubricant that functions from -40°F to 572°F. Chemically inert formula that dries quickly to a white film to show coverage. Does not contain silicone or chlorinated solvents. Extremely low static coefficient of friction makes it a superb lubricant where low speeds and light loads are involved. Great anti-stick properties for use as an effective release agent.

# LU708

### APPLICATION & PERFORMANCE

Metal extrusions, locks and catches, window guides, machine parts, cord, twine or rope, hinges, glass, elastomers

- Safe on most plastics
- Lowest coefficient of friction

## RUST BREAKER® PENETRANT

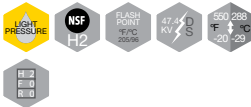

Quickly loosens rust while penetrating grease and dirt. Fast-acting, transparent, non-staining oil, its light film displaces moisture and acts as a corrosion preventative. Vanilla scented.

### APPLICATION & PERFORMANCE

Rusted or frozen lugs and bolts, lubricating tight-fitting parts, repair work, general overhaul, phosphated and non-phosphated machined parts, automotive parts, crank shafts, other metal components

- Quickly loosens rust
- Will not harm painted surfaces
- Non-flammable
- Penetrant, water-displacer and rust inhibitor all-in-one

**LU103**

SKU	SIZE
SC0103000	10 oz/284 g Aerosol *

## MOLY CHAIN LUBRICANT

High viscosity oil that clings to moving parts. Foaming action penetrates close tolerances of chain drive bushings and pins to provide long-lasting lubrication. Reduces friction wear on moving parts and metal-to-metal applications. Moly additive improves capacity to handle greater pressure requirements of start up stress.

### APPLICATION & PERFORMANCE

Chain drives & pins, forklift trucks, link & roller assemblies, tractors, machinery, rollers, conveyors, motorcycle & bicycle chains, sprockets, clippers, cutter bars, chain saws

- Moly additive improves load capability
- Works under extreme pressure
- Penetrating foaming action
- Long-lasting and non-drying

## FOOD GRADE PENETRATING OIL

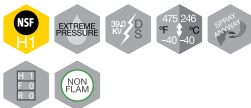

Quickly penetrates nuts and bolts. Accelerated action loosens rust while penetrating grease, dirt and corrosion.

### APPLICATION & PERFORMANCE

Fasteners, hose fittings on food processing, industrial equipment

- Quick penetration
- Non-flammable
- Use to loosen rust, scale and corrosion

**LU104**

SKU	SIZE
S00104000	11.75 oz/333 g Spray Anyway™ Aerosol

## FOOD GRADE CHAIN LUBRICANT

Treated with the most effective anti-oxidants, extreme-pressure, anti-wear, and corrosion protecting additives. P.T.F.E. is added to further enhance load capacity, and reduce friction. Offers excellent extreme-pressure lubricity, water resistance and high temperature performance on chains and much more. Foaming action allows for pinpoint application and deep penetrations.

### APPLICATION & PERFORMANCE

Lift trucks, conveyors, packaging equipment, roller chains, hoist chains

- Extreme-pressure lubricity
- Foaming action for deep penetration
- Excellent water resistance and anti-wear properties

**LU205**

SKU	SIZE
S00205000	15 oz/425 g Spray Anyway™ Aerosol

## FOOD GRADE LOW TEMP LUBRICANT

Multi-service lubricant for extended service under extremely low temperature conditions (as low as -78°F). Treated with the most effective extreme-pressure, corrosion inhibitors, anti-oxidant, anti-foam and anti-wear additives. Provides maximum equipment protection in extremely low temperature applications.

### APPLICATION & PERFORMANCE

- Excellent low temperature performance
- Reduces friction and wear
- Non-staining

# LU214

SKU	SIZE
S00214000	15 oz/425 g Aerosol

## FOOD GRADE MACHINERY OIL

General purpose lubricant that penetrates and loosens dirt, scale, and corrosion. Non-silicone formula is excellent for use in areas where silicone overspray might interfere with carton sealing or capping operations. Virtually odorless, tasteless, and colorless.

### APPLICATION & PERFORMANCE

Mixers, conveyors, valves, pistons, rollers, slides, cams, bottle and carton filling machinery, stainless steel pumps, chain drive belts

- Works on paint, metal, plastic and wood
- Silicone free formula

# LU700

## ECO-GRADE™ GENERAL PURPOSE LUBRICANT & PENETRANT

Biodegradable 3-in-1 penetrant and lubricant that quickly penetrates and dissolves rust, gum and corrosion. Loosens stuck parts, lubricates and prevents rust and corrosion. Formulated with renewable resources.

### APPLICATION & PERFORMANCE

Release or rusted or frozen lugs and bolts, lubrication and tight-fitting parts, general overhaul, repair work

- Rapidly biodegradable
- Formulated with rapeseed oil
- Prevents rust
- Quick penetration

# LU402

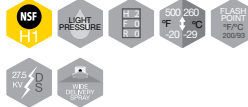

SKU	SIZE
SC0402000	12 oz/340 g Aerosol *

## FOOD GRADE MACHINERY OIL

Recommended to lubricate food and beverage processing equipment. High-purity white mineral oil penetrates and loosens rust, dirt, scale and corrosion. Provides effective lubrication to free up rusted or corroded parts. Will not harm paint, plastic, or wood surfaces.

# LU701

SKU	SIZE
S00701000	13.25 oz/375 g Wide Delivery Aerosol - Big Button Actuator

## LU711

### THE PROTECTOR™ ALL-PURPOSE LUBRICANT

Transparent blend of high quality petroleum distillates specifically formulated to ensure maximum moisture displacement. Ultra-thin film resists the collection of abrasive particles on delicate contacts and connectors. Known as The Protector, it's the choice of industry to penetrate, lubricate, demoiseurize and inhibit corrosion.

#### APPLICATION & PERFORMANCE

All metal surfaces, nuts and bolts, operating controls, electrical wiring, ignition systems, circuitry, connectors

- Penetrates and prevents rust
- Displaces moisture and lubricates
- Contains no silicone

SKU	SIZE

## LU727

### HIGH PERFORMANCE WET LUBRICANT

Penetrates deep into corroded areas to clean and dissolve rust, grease and dirt, even in the tightest tolerances. Displaces moisture, lubricates and provides a protective film to guard against humidity and corrosion over a wide temperature range. An excellent choice for electrical applications. Ensures maximum protection against extreme pressure, friction and wear on all moving parts.

#### APPLICATION & PERFORMANCE

Metal extrusions, locks and catches, window guides, machine parts, cord, twine or rope, hinges, glass, elastomers and some plastics

- Works from -40°F to +450°F
- Dielectric strength: 47,000 volts
- High flash point

SKU	SIZE
SC0727000	9.25 oz/262 g Aerosol *

## LU728

### NON-FLAMMABLE SYNTHETIC LUBRICANT

Specifically developed to meet the demands for a safe, low HMIS rating, non-flammable lubricant that has all the performance characteristics of a premium, high load capable, synthetic lubricant.

#### APPLICATION & PERFORMANCE

Hinges, cables, nuts & bolts, linkages, conveyors, chains

- Low HMIS rating
- Extreme pressure performance
- Formulated with P.T.F.E.

SKU	SIZE
SC0728000	8.75 oz/262 g Aerosol * *

### FOOD GRADE WHITE GREASE

High solids, high-purity complex, white grease with superior metal-to-metal characteristics. Effective from -20°F to 285°F, the high solids content provides long-lasting lubrication and assures it will not drip or run, even on vertical surfaces. Serves as an excellent water displacer and corrosion inhibitor for unpainted metal and comes equipped with an extension tube for hard-to-reach areas.

#### APPLICATION & PERFORMANCE

Bakeries, bottlers, breweries, canneries, dairies, egg processors, meat, poultry processors

- High viscosity & build for vertical surfaces
- Long-lasting lubrication
- Water-displacer
- Rust inhibitor

## MULTI-PURPOSE RED GREASE

Delivers superior metal-to-metal characteristics by coating, penetrating, and then curing to a semi-solid film. Multi-purpose aluminum complex red grease. Effective from 10°F to 480°F. High solids content provides long-lasting lubrication and assures that it will not drip or run, even on vertical surfaces. An excellent corrosion inhibitor for unpainted metal. Equipped with an extension tube for hard-to-reach areas.

### LU102

#### APPLICATION & PERFORMANCE

- Gears, valves, chains, winches, conveyors, fittings, linkages, wire ropes, hoists, rollers, cams, slide bearings, o-rings, drives, hinges
- Will not run or drip
  - Excellent metal-to-metal characteristics
  - Water-displacer and rust inhibitor

SKU	SIZE
S00102000	13.75 oz/389 g Aerosol

## OPEN GEAR & WIRE ROPE LUBRICANT

High performance lubricant that penetrates metal surfaces to reach the core of the wire rope. Heavy duty lubricant performs at high temperatures while adhering extremely well to surfaces. Displaces water for excellent rust protection. Can be used while equipment is in operation.

### LU201

#### APPLICATION & PERFORMANCE

Open or exposed gears, gear boxes, wire rope, winches, cables, metal forming presses, roller chains, machine tools

- Contrasting black color assists in achieving complete coverage
- Prevents rust and corrosion
- Withstands extreme pressure
- Will not become brittle or break-down while working

### FOOD GRADE MULTI-PURPOSE SEMI-SYNTHETIC GREASE

Specifically designed for general lubrication in food processing facilities. Excellent film-forming characteristics and anti-wear qualities. Will stay on metal surfaces much longer than conventional greases, resulting in longer-lasting application and fewer lubrication intervals. With semi-synthetic base oils and polymer additives, it is completely resistant to water washout, friction and chemical attack. White, odorless and tasteless.

#### APPLICATION & PERFORMANCE

Conveyor bearings, ball bearings, journal bearings, roller bearings, universal joints, any lubrication point having sliding or rolling friction

### WAXY FILM PROTECTANT

High solids, corrosion preventative compound suitable for a wide range of applications. Provides long term protection of all metal surfaces, including crevice locations. Pliable, firm coating has a polar attraction to metal surfaces and does not crack, age or harden. Dried coating is not flammable and protects electrical connections and wiring. Not harmful to paints and prevents galvanic corrosion. Guards against fretting corrosion. Heavy duty, water displacing film allows greater protection for machinery or parts stored outdoors, especially in salt water or a high humidity atmosphere. Easily removed with petroleum solvents, kerosene or perchloroethylene.

#### APPLICATION & PERFORMANCE

Chemical plant valves, farm machinery, industrial machinery/equipment, electrical/electronic equipment, steel mills, cable cars, conveyor belts, motorcycles, lugnuts, anywhere wire rope is used.

### SYNTHETIC DRY PROTECTANT

A transparent non-staining dry film that cleans, penetrates, lubricates and displaces moisture. Formulated with synthetic additives to assure maximum penetration and protection against rust and corrosion. Resists dust, dirt and oil. Non-staining, waterproof, chemical resistant, and non-conductive. An excellent lubricant for bearings and sliding surfaces, as well as moisture displacement in electrical applications.

#### APPLICATION & PERFORMANCE

Excellent for bearings and sliding surfaces; displaces moisture in electrical applications.

- Penetrating, greaseless lubricant
- Resists dust and dirt buildup
- Non-flammable propellant
- No chlorinated solvents

### INDOOR METAL PROTECTANT

A medium weight oil formulated for excellent lubrication. Superior corrosion protection, moisture displacement, and penetration properties. Non-staining and non-conductive; works up to 15 months against humidity and corrosion damage. Ideal for storage of items indoor and items to be shipped. Leaves an amber film showing total coverage of the object sprayed. Safe on metals, rubber, plastic, and painted surfaces.

#### APPLICATION & PERFORMANCE

Protects equipment stored indoors and items waiting to be shipped.

- Penetrates and prevents rust
- Displaces moisture
- 15 month durability
- Lubricant and corrosion inhibitor

### OUTDOOR METAL PROTECTANT

A waxy corrosion preventative that offers excellent lubrication and long term outdoor protection. Tacky film provides an excellent barrier to salt spray and high humidity.

#### APPLICATION & PERFORMANCE

Bodies and frames of vehicles and machines, storage tanks and containers, castings, industrial parts and machines, molds cables, generators, marine engines and parts, electrical equipment, sheet steel, oil field equipment, threads, locks dies, gears

## HIGH PERFORMANCE SILICONE LUBRICANT

A silicone-rich formula that lubricates and protects in a variety of applications. Can be used on wood, metal, rubber, most plastics, leather, vinyl, canvas, or painted surfaces. Polishes to a shine to shed dirt and water.

### APPLICATION & PERFORMANCE

Rubber mountings, weather-strip insulation, doors, locks, trunk lids, windows, slitter knives, any sliding surface

- Water displacer
- Rust inhibitor

# LU1324

SKU	SIZE
SC1324000	10 oz/284 g Aerosol ✦

## ALL-PURPOSE SILICONE LUBRICANT

A 5% low-viscosity silicone formula that is compatible with most surfaces. Repels water and is non-corrosive to metals. An excellent lubricant on plastic, fiber gears extruded parts, wood-to-wood sliding applications, and on rubber.

### APPLICATION & PERFORMANCE

Rubber components, windows, doors, plastic assemblies, drawers, sliding wood surfaces, sliding racks, dissimilar metals, springs, doors, hinges, weather-stripping, plastic assemblies

- Improves high-speed production
- Paintable
- Retards oxidation and corrosion
- 5% silicone

## FOOD GRADE DRY SILICONE

A low-viscosity silicone formula compatible with most surfaces. Ultra-thin film will not attract dust or dirt and will create a barrier to prevent rust and corrosion.

### APPLICATION & PERFORMANCE

Plastic fiber gears, extruded parts, wood-to-wood sliding applications, rubber

- Extra-dry formula for surfaces requiring no transfer
- Improves performance of slide surfaces & sorting chutes
- Will not attract dust, dirt or other contaminants

# LU211

SKU	SIZE
S00211000	13.25 oz/375 g Aerosol

## FOOD GRADE SILICONE LUBRICANT

A 5% low-viscosity silicone formula compatible with most surfaces. Effective from -40°F to 450°F. Repels water and is non-corrosive to metals.

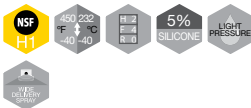

### APPLICATION & PERFORMANCE

Plastic fiber gears, extruded parts, wood-to-wood sliding applications, rubber

- Features Big Button Actuator for wide coverage and comfort
- Resists corrosion and chemical attack

# LU212

SKU	SIZE
S00212000	13.25 oz/375 g Aerosol Big Button

## HEAVY DUTY SILICONE LUBRICANT

Contains a heavy concentration of high-viscosity silicone which will withstand medium loads and pressures. Reduces wear and friction in applications from -40°F to 450°F. Penetrates the surface and provides a continuous non-staining film that repels dust and dirt.

### APPLICATION & PERFORMANCE

Slitters, bushings, knives, guides, slides, locks, conveyors, moving parts, dissimilar metals, air tables, rubber items, high wear areas

- Formulated without methylene chloride
- Non-staining
- Works from -40°F to +450°F
- Reduces friction and wear

# LU905

SKU	SIZE
SC0905000	12 oz/340 g Aerosol

## FOOD GRADE SILICONE LUBRICANT

A low-viscosity silicone lubricant that is colorless, odorless, and tasteless. Effective from -58°F to 575°F. Prevents sticking without transferring to end products. Can be used in proximity to foods where petroleum products and other organics would contaminate.

### APPLICATION & PERFORMANCE

Slides, guide rails, knives, slicers, saws, grinders, dough mixers, guards, heat sealing equipment, conveyors, food racks, ovens, bottling machines

- Formulated without methylene chloride
- Works from -58°F to +575°F
- Low viscosity - no buildup

WET FILM RELEASE AGENTS

### MR 302

#### GENERAL PURPOSE RELEASE AGENT

Contains a light duty silicone that is ideal for cold molds and is a multi-purpose mold release.

##### APPLICATION & PERFORMANCE

Plastics, injection molders, compression molders, candle molders, investment castings, extruders, blow molders

- 2% silicone, non-staining, non-corrosive
- Works from 40°F to 550°F

SKU	SIZE
SC0302000	12 oz/340 g Aerosol ✘ ✘

### MR 303

#### FOOD GRADE RELEASE AGENT

An effective mold release for all types of materials, including wax, rubbers, P.T.F.E. ceramics and plastics.

##### APPLICATION & PERFORMANCE

Plastic injection molders, compression molders, investment castings, extruders, blow molders, foundries, lost wax process

- 3% silicone, non-staining, non-corrosive
- Works from 40°F to 550°F

S30305000	5 gl/18.9 L Bulk ✘
SC0303550	55 gl/208 L Bulk ✘

### MR 305

#### HEAVY DUTY SILICONE RELEASE AGENT

Contains an extra heavy concentration of high-viscosity silicone that provides maximum release under the most severe molding conditions. Heat stable to 550°F.

##### APPLICATION & PERFORMANCE

Rubber, plastics, elastomeric materials, polystyrenes, polyurethane foams, metal coatings

- 4.8% silicone, stops crazing, spotting, sticking
- Works from 40°F to 550°F

SKU	SIZE
S00305000	12 oz/340 g Aerosol

## HEAVY DUTY PAINTABLE RELEASE AGENT

Specifically formulated for large, intricate or difficult to release parts. Allows the part to be painted, plated, stenciled, hot stamped, glued or otherwise decorated. Compatible with plastic, rubber, wax, most moldable resins, and elastic compounds. Recommended for injection molding and hot or cold molding processes.

### MR 307

**APPLICATION & PERFORMANCE**  
Appliances, housewares, furniture, sporting goods, tires (green carcass), automotive, electronic components

- Works up to 550°F
- Fast evaporating

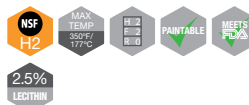

SKU	AMOUNT
S00307000	12 oz/340 g Aerosol

## PAINTABLE LECITHIN RELEASE AGENT

A universal paintable, non-silicone mold release which delivers a clear soybean fluid. Made of hydroxylated lecithin derived from soybean, it is designed for a quick, clean release for thermosets and thermoplastics. It will not interfere with post-finishing.

### MR314

**APPLICATION & PERFORMANCE**  
Food, beverage, meat, poultry, and pharmaceutical plants; breweries; and on many types of plastics including polypropylene, polyethylene, nylon

- For gasket and seal closures
- Excellent release properties

SKU	AMOUNT
SC0314000	12 oz/340 g Aerosol * *

## PAINTABLE RELEASE AGENT

Specially formulated paintable co-polymer for applications where a minimum amount of silicone is required. Finished parts can be painted, stenciled, glued, hot stamped, or otherwise decorated. Compatible with plastic, elastomeric compounds, and most moldable resins.

### MR 309

**APPLICATION & PERFORMANCE**  
Appliances, housewares, furniture, sporting goods, tires (green carcass), automotive, electronic components

- Will not harm most plastics
- Low odor
- Ideal for post decorating

SKU	SIZE
S00309000	12 oz/340 g Aerosol

## URETHANE & STYRENE SILICONE RELEASE AGENT

A high-viscosity silicone that eliminates the common problem of chemical attacks on ultra-sensitive materials. Compatible with most moldable resins and elastomeric compounds. High purity minimizes crazing, spotting, sticking, and other causes for rejection.

### MR315

**APPLICATION & PERFORMANCE**  
Polystyrenes, elastomeric materials, plastics, polyurethanes

- 2% silicone
- Non-corrosive
- Stops crazing, spotting, sticking

SKU	SIZE
S00315000	12 oz/340 g Aerosol

## DRY FILM RELEASE AGENTS PERFORMANCE

DRY FILM RELEASE AGENTS

**MR311**

H 2 F 2 R 0
MAX TEMP 575°F / 302°C
5% P.T.F.E.

### DRY FILM RELEASE AGENT

Contains fluoropolymer, which provides an extremely thin, dry film that does not transfer to finished parts. Allows multiple releases per application and is compatible with most moldable resins and elastomeric compounds, as well as delicate urethanes. Will not interfere with post-finishing operations.

#### APPLICATION & PERFORMANCE

Polystyrenes, polypropylenes, nylon, rubber, foams, metals, filament windings, polyurethanes, epoxy potting and encapsulating, phenolic resins

- Does not contain silicone
- Made with P.T.F.E. dry film
- Excellent for post decorating

SKU	SIZE
SC0311000	12 oz/340 g Aerosol ✦

**MR312**

H 2 F 2 R 0
MAX TEMP 450°F / 232°C
3.0% ZINC STEARATE

### DRY ZINC STEARATE RELEASE AGENT

A high-grade, finely milled, dry zinc-powder release agent that is effective up to 450°F. Gobbing and hot spots are controlled, reducing rejected parts. Excellent for thermosetting and thermoplastic applications. Will not interfere with post-finishing operations such as painting, plating, stenciling, hot stamping, or gluing.

#### APPLICATION & PERFORMANCE

Clear styrenes and acrylics, reflex lenses, polypropylenes, polycarbonates, polystyrenes, polysulfonates, plastic molds, molding ceramics

- Will not harm most plastics
- Repels dust
- Non-silicone

SKU	SIZE

### MR 351

### MOLD CLEANER

A non-abrasive cleaner for all types of metal molds that also leaves a fine, microscopic inhibitor for short-term protection against corrosion. Surface moisture, dirt, oils, release agent residues, and other contaminants are quickly eliminated without the necessity of removing the mold from the machine.

#### APPLICATION & PERFORMANCE

Metal molds, machinery, electrical and electronic equipment, pins, mechanical equipment.

- Non-abrasive
- Neutralizes fingerprints
- Equipped with SPRAY ANYWAY™ valve
- Removes resin residual, oils and, grease deposits

SKU	SIZE
S00351000	16 oz/453 g Aerosol
A35155000	55 gl/208 L Bulk *

### MR 353

### FOAMING CITRUS MOLD CLEANER

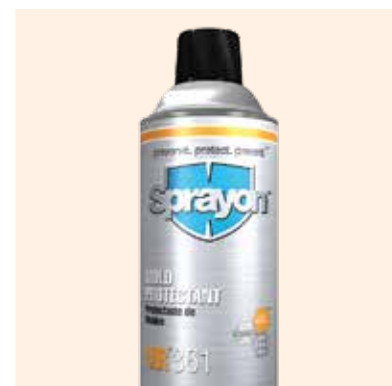

Non-chlorinated and safe to use on plastics and painted surfaces.

#### APPLICATION & PERFORMANCE

Cold molds, warm molds, mechanical equipment

- High foaming action and cling
- d-Limonene based
- Safe on all molds and plastic surfaces
- Neutral pH

SKU	SIZE
S00353000	15.25 oz/432 g Foaming Action Aerosol

### MR 361

### MOLD PROTECTANT

A firm, non-tacky corrosion inhibitor. Provides long-term protection against rust and contamination. Wax-based protectant will not penetrate into pin areas and cause part rejections. Clear opaque-like color helps determine coverage.

#### APPLICATION & PERFORMANCE

All metal molds, pins, dies, machinery

- Prevents rust and contamination
- Non-staining formula
- Excellent humidity resistance
- Excellent for outdoor storage

### ECO-GRADE™ VANDAL MARK REMOVER

A highly effective, soy-based vandal mark remover that replaces terpene or petrochemical-based products. Specially formulated to be user friendly and contain natural, biodegradable ingredients that quickly and easily remove graffiti marks.

#### APPLICATION & PERFORMANCE

Wood, brick, stone, metal, graphite, steel

- Contains natural, biodegradable ingredients
- Quickly and easily removes paint, ink, magic marker, and adhesive residue
- Sprays and clings to vertical surfaces

SKU	SIZE
SC0404000	12 oz/340 g Aerosol ✚

### ECO-GRADE™ PAINT & ADHESIVE REMOVER

Premium coating stripper formulated to remove multiple layers of oil and latex paints. Removes many other coatings like epoxies, urethanes, elastomerics, and chlorinated rubber. Designed without methylene chlorine, MEK, or other harsh flammable chemicals. Has long dwell times and excellent ability to stick to vertical surfaces.

#### APPLICATION & PERFORMANCE

Wood, brick, stone, metal, graphite, glass, brick, ceramic tile, concrete, steel

- Made from renewable resources
- Removes coatings in minutes
- Excellent ability to stick to vertical surfaces.

SKU	SIZE
SC0405000	12 oz/340 g Aerosol ✚

## HEAVY DUTY PAINT REMOVER (WITH METHYLENE CHLORIDE)

A fast-acting remover that cuts through all paint finishes. Removes urethanes, varnishes, and shellacs. Penetrates through gasket cements, decals, sealants, adhesives, tape residue, and carbon deposits.

### APPLICATION & PERFORMANCE

Metal, stone, wood, brick, glass, ceramic tile, concrete, road signs, trucks, bridges, transportation and construction equipment, all types of general maintenance

- Leaves surfaces clean and ready-to-paint
- Fast acting paint remover
- Removes baked finishes
- Cuts through all paint finishes, urethanes, varnishes, and shellacs

SKU	SIZE
SC0615000	15 oz/425 g Aerosol *

**SP915**

## METHYLENE CHLORIDE FREE PAINT REMOVER

Developed for use in the removal of coatings, varnishes, epoxies, and urethanes. Allows for rapid penetration and removal of many common coatings.

### APPLICATION & PERFORMANCE

Metal, stone, wood, brick, glass, ceramic tile, concrete, road signs, trucks, bridges

- Fast penetration, cuts through all paint finishes, urethanes, varnishes and shellacs
- Leaves surface clean and ready to repaint
- No chlorinated solvents, caustics, or acids

**BLUE LAYOUT DYE**

Applies a smooth, even coat for all layout work. Dark blue color provides sharp contrast of scribed lines against clean surface. Dries instantly and will not rub off. Fine, clean lines can be drawn on this non-glaring, non-flaking coating. Adheres to all metals, aluminum or glass. Removes easily with Sprayon SP606 Layout Dye Remover.

**APPLICATION & PERFORMANCE**

Tool and die-making, machining, pattern-making and maintenance mechanicals

- Does not contain methylene chloride
- Dries quickly; will not rub off
- Sticks to metal and glass
- Non-etching

SKU	SIZE
SC0603000	12 oz/340 g Aerosol *

**SP 606**

EZ TOUCH®
REWORKABLE

**LAYOUT DYE REMOVER**

Specially formulated to remove SP603 Blue Layout Fluid or other layout fluids quickly and efficiently. May also be used to remove light oils, grease, many types of paint, and other markings on metal or glass. Eliminates the use of daubers and brushes. Does not contain methylene chloride.

**APPLICATION & PERFORMANCE**

For the quick and easy removal of layout fluids, other markings

- Removes old inks, oils and greases
- Fast acting
- Leaves no residue
- No chlorinated solvents

SC0606000	12.75 oz/361 g Aerosol *

## INSECTICIDES PERFORMANCE

DESCRIPTION	EPA REG NO.	FEATURES	CONTAINER SIZE
SP856 Insect Repellant II	10900-72-64695	Protects up to 4 Hours	Aerosol - 6 oz
SP857 Blast 'em™ Wasp & Hornet Killer	67603-11-64695	Sprays up to 20 ft with Accu-Sol™ Ergonomic Trigger	Aerosol - 20 oz. and 16 oz
SP859 Hit Squad™ Industrial Insecticide	1021-1615-64695	Indoor/Outdoor Use	Aerosol - 11.75 oz

**SP 856**

### INSECT REPELLANT II

Contains a combination of active ingredients to protect against insect bites up to eight hours under normal use. Frequent applications and saturation is unnecessary for effectiveness.

#### APPLICATION & PERFORMANCE

Effectively repels mosquitoes, black flies, chiggers, deer flies, ticks, gnats, stable flies, fleas

- EPA REg. No. 10900-72-64695
- 25.0% DEET

SKU	SIZE
S00856000	6 oz/170 g Aerosol

**SP 857**

### BLAST 'EM™ WASP & HORNET KILLER

Residual deposit will kill returning wasps and hornets.

#### APPLICATION & PERFORMANCE

Ideal on utility meters and boxes; nesting areas in eaves and shrubs; outside surfaces of screens, doors, and window frames; porch lighting fixtures; also for use in outdoor public areas

- Sprays up to 20 feet
- EPA REg. No. 67603-11-64695

SKU	SIZE
S00857000	16 oz/454 g Aerosol
S02085700	20 oz/566 g Aerosol
S03085700	14 oz/396 g Aerosol - Accu-Sol Trigger

**SP 859**

### HIT SQUAD™ INDUSTRIAL INSECTICIDE

A insecticide for use in institutions, food processing plants, apartments, garages, hotels, and motels.

#### APPLICATION & PERFORMANCE

Works on houseflies, mosquitoes, gnats, wasps, small moths, ants, roaches, waterbugs, silverfish, centipedes, spiders, crickets

- Industrial-strength insecticide designed to kill common insects
- Flushing action and fast knockdown
- For indoor or outdoor use
- EPA REg. No. 1021-1615-64695

SKU	SIZE
S00859000	11.75 oz/333 g Aerosol

## VINYL REMOVABLE COATING

Specially formulated to protect a variety of nonporous surfaces against abrasion, scratches, moisture, rust, and corrosion—during shipping and in storage. An easy way to keep spray booth clean.

### APPLICATION & PERFORMANCE

Precision tools, stainless steel, anodized aluminum, unpainted metal, paint booths, glass, castings, baked enamel surfaces, mirrors, chrome dies, masking

- Protects non-porous surfaces
- Resists mild acids
- Protects against paint overspray
- Works up to 150°F

**SP 322**

SKU	SIZE
SC0322000	12 oz/340 g Aerosol *

## ANTI-STATIC SPRAY

Neutralizes static electricity generated by friction and low humidity conditions. A light coating eliminates static charges immediately. Remains on the surface to suppress static accumulation. Repels lint and dust.

### APPLICATION & PERFORMANCE

Printing and bindery equipment, sheet cutters, textile equipment, rewinders, paper and packing machinery, production feeders, slitters

- Neutralizes static electricity
- Safe on plastic, paper and fabric
- Dries instantly
- Clear non-staining film

**SP 610**

SKU	SIZE
SC0610000	11.5 oz/326 g Aerosol *

OTHER

## BELT DRESSING

Effective performer, even when subjected to wet or outdoor conditions. Will not glaze, collect dirt or dust. Conditions belts while increasing pulling power up to 50%. Equipped with a Spray Anyway™ valve. Reduces squeaky noise, caused by old “V” belts.

### APPLICATION & PERFORMANCE

Leather, rubber, canvas, fabric; flat, round or “V” belts, auto fan belts, farm machinery belting; all industrial belt drives including generators, fans

- Increases pulling power
- Contains no asphalt or rosin
- Does not glaze or collect dirt

**SP 607**

SKU	SIZE
SC0607000	11 oz/312 g Aerosol *
SC0607LQ0	14 fl oz/414 mL Liqui-Sol™ Non-Aerosol Trigger Spray **
S60705000	5 gal/18.9 L Bulk *

## FOOD GRADE BELT DRESSING

Ideal for industrial, automotive and food processing applications. Highly-processed ingredients to ensure increased RPM and horsepower, while reducing slippage. Will not glaze, collect dirt, or dust. Effective in the prevention of dry rot and air rot. Conditions belts while increasing pulling power.

### APPLICATION & PERFORMANCE

- Colorless and water resistant
- Rosin and asphalt free
- Increases pulling power

**SP 608**

SKU	SIZE
S00608000	13.25 oz/375 g Aerosol

## ENGINE DEGREASER

Specially formulated to clean all mechanical engines, machinery, and tools. Biodegradable formula removes dirt, grease, and varnish deposits by simply spraying it on and flushing the surface with water. Emulsifies so that the contaminants are carried away, leaving the surface clean. The high-velocity valve delivers the cleaning agent to intricate mechanical parts.

### APPLICATION & PERFORMANCE

Automotive and marine engines, mechanical equipment, shop equipment, machinery, tools

- Removes dirt, grease and varnish
- Contains d-Limonene
- High delivery valve

# SP 702

SKU	SIZE
S00702000	12 oz/340 g Aerosol

## MULTI-PURPOSE SPRAY ADHESIVE

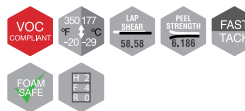

Great for bonding a variety of lightweight materials. Provides high coverage and has low soak-in factor. For long lasting, secure bonds whether your project is simple or complex.

### APPLICATION & PERFORMANCE

Lightweight foams, cardboard, fabric, plastic, wood, foil, (un) painted metals, paper, cartons, carpets, metal, fiberglass, felt, cloth

- Dries quickly
- Controlled mist spray pattern
- Tack Range: 10–30 seconds

# SP 7000

SKU	SIZE
S0700000A	16.75 oz/474 g Mist Spray Aerosol

## RTV SILICONE SEALANTS

Provides a tough, flexible bond between wood, metal, glass, plastic, ceramic, masonry, and more. Bonds and seals cracks, holes and pores against water, dust, air, leakage, chemicals, oils, and greases. Paints do not adhere well to this sealant. Complete painting before applying. Not recommended for exterior, below the-waterline marine applications. Not for use in direct contact with gasoline, kerosene, or other liquid solvents.

### APPLICATION & PERFORMANCE

- Mildew-resistant
- Long work life or tooling time of 5–10 minutes
- Dielectric strength 500 volts per mil
- No cartridge mess or squeeze tubes

# SP 000 SERIES

SKU	SIZE
SC0010000	8 oz/226 g Aerosol (Clear) *

## HEAVY-DUTY SPRAY ADHESIVE

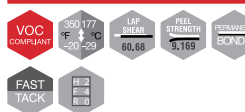

Can be used to bond plastic, glass, and laminates to tables, cabinets, and shelving. Has a variable, volume controlled, lace spray pattern for stronger bonds and spray control.

### APPLICATION & PERFORMANCE

Laminates, cardboard, ceramics, paper, plastic, metal, particle board, wood

- Heat resistant up to 170°F
- Controlled lace spray pattern
- Tack Range: 10–30 seconds

# SP 9000

SKU	SIZE
S0900000A	16.25 oz/460 g Lace Spray Aerosol

ANTI-SPATTERS

**SPRAYON'S WELDING PRODUCTS ARE CAREFULLY FORMULATED TO MEET MORE SPECIALIZED MAINTENANCE NEEDS.**

## DRY WELD SPATTER PROTECTANT (WITH METHYLENE CHLORIDE)

A powder formula that dries to a white film. Prevents spatter from sticking to metal surfaces during welding. Just brush or wipe off residue after welding. Surface may be painted after use.

### APPLICATION & PERFORMANCE

All types of maintenance and production welding, construction, body shops

- Reveals weld cracks
- Does not contain silicone
- Prevents base metal spatter
- Brushes off easily

# WL541

SKU	SIZE
SC0541000	16 oz/454 g Aerosol 🇨🇦

## DRY WELD SPATTER PROTECTANT (NO METHYLENE CHLORIDE)

A powder formula that dries to a white film. Prevents spatter from sticking to metal surfaces during welding. Just brush or wipe off residue after welding. Does not contain silicone. Surface may be painted after use. Does not contain Methylene Chloride.

### APPLICATION & PERFORMANCE

All types of maintenance and production welding, construction, body shops

- Does not contain silicone
- Prevents base metal spatter
- Talc based

# WL941

SKU	SIZE
SC0941000	12 oz/340 g Aerosol 🇨🇦 *

## WET WELD SPATTER PROTECTANT (WITH METHYLENE CHLORIDE)

A liquid anti-spatter that keeps welding tips and nozzles clean and prevents weld spatter adhesion. Does not contain silicone and will not interfere with post-decorating.

### APPLICATION & PERFORMANCE

Contact tips, weldments, electrode holders, fixtures, resistance welding tips, wheels

- Works on mig and tig tips
- Does not contain silicone
- Prevents base metal spatter
- Soy based and will not interfere with painting

# WL542

SKU	SIZE
SC0542000	16 oz/454 g Aerosol 🇨🇦

## WET WELD SPATTER PROTECTANT (NO METHYLENE CHLORIDE)

A liquid anti-spatter that keeps welding tips and nozzles clean and prevents weld spatter adhesion. Does not contain silicone and will not interfere with post decorating. Does not contain Methylene Chloride.

### APPLICATION & PERFORMANCE

Contact tips, weldments, electrode holders, fixtures, resistance welding tips, wheels

- Works on mig and tig tips
- Non greasy lecithin formula

# WL942

SC0942000	15.5 oz/439 g Aerosol 🇨🇦

## SILVER GALVANIZING PERFORMANCE

DESCRIPTION	BASE TYPE	FORMAT	APPEARANCE	% ZINC DRY FILM	TEMPERATURE RANGE
WL739 Silver Galvanizing Compound	Alkyd	Aerosol	Silver Gray	69%	400°F (Max)
WL839 High Performance Silver Galvanizing Compound	Alkyd	Aerosol	Bright Silver	69%	400°F (Max)

**WL 739**

- PREVENTS CORROSION
- MAX TEMP 400°F / 204°C
- H 2 F 3 R 1
- 69% Zn DRY FILM
- MEETS ASTM STANDARD A-780-01

### SILVER GALVANIZING COMPOUND

A sacrificial coating that inhibits rust and corrosion to ferrous metals. An excellent fast drying touch-up for repair of galvanized substrates. Has the bright finish of hot-dip galvanized coating.

#### APPLICATION & PERFORMANCE

Refineries, ornamental iron, welds, power plants, fences, farm equipment, gutters, automotive, bridges, highway maintenance, structural steel, transmission towers, damaged galvanized surfaces

- Hot-dip appearance
- Dry to touch in 30 minutes
- Dry heat and chemical resistant

SKU	SIZE
SC0739000	14 oz/396 g Aerosol 🇺🇸

**WL 839**

- PREVENTS CORROSION
- MAX TEMP 400°F / 204°C
- H 2 F 3 R 1
- 69% Zn DRY FILM
- MEETS ASTM STANDARD A-780-01
- WELD THROUGH
- HOT DIP BRIGHT

### HIGH-PERFORMANCE SILVER GALVANIZING COMPOUND

A metallic zinc sacrificial coating that inhibits rust and corrosion on ferrous and non-ferrous metals. An excellent touch-up for the repair of galvanized substrates that have been damaged by abrasion, scratching, cutting, or welding. Brilliant finish and premium performance. Excellent touch-up of welds and can be used as a weld-through primer.

#### APPLICATION & PERFORMANCE

Damaged galvanized surfaces, structural steel, transmission towers, welds, heavy equipment, pipes, metal chain fences, bridges, railroad equipment, guard rails, oil field equipments, anywhere a bright look hot dipped surface is desired

- Brilliant hot-dip appearance

SKU	SIZE
S00839000	14 oz/396 g Aerosol

## ZINC RICH GALVANIZING PERFORMANCE

DESCRIPTION	TYPE	FORMAT	APPEARANCE	% ZINC DRY FILM	TEMPERATURE RANGE
WL740 Zinc Rich Galvanizing Compound	Epoxy	Aerosol (Upright & Inverted) Bulk	Medium Gray	92%	600°F (Max)

# WL740

PREVENTS CORROSION	MAX TEMP 600°F/ 316°C	H 2 F 2 R 1	92% Zn DRY FILM
--------------------	-----------------------------	-------------------	-----------------------

### ZINC-RICH GALVANIZING COMPOUND

A high performance primer containing 97% pure zinc dust pigment blended with epoxy resin. Stops rust by electro-chemical action on steel or galvanized coatings. Self-sacrificing zinc protects the base metal, preserves strength, and prevents rust creepage when the area is penetrated or scratched. Delivers protection against corrosion equal to or better than hot dipped galvanizing.

#### APPLICATION & PERFORMANCE

Automotive, power plants and refineries, industrial tanks, piping, welded joints, bridges, farm equipment, fences, ornamental iron, gutters, structural steel, transmission towers, galvanized surfaces

- 92% Zinc Dry Film
- Stops rust
- Low VOC
- Non sagging formula

SKU	SIZE
SC0740000	14 oz/396 g Aerosol 🇨🇦
SC0740INV	14 oz/396 g Inverted Aerosol 🇨🇦

SC0740010	1 gl/3.78 L Bulk 🇨🇦

## AVAILABLE IN BULK!

ZINC RICH GALVANIZING

**OUR FORMULAS MEET TOUGH INDUSTRY SPECIFICATIONS AND OFFER HIGH CORROSION RESISTANCE ACROSS A MULTITUDE OF APPLICATIONS.**

STAINLESS STEEL COATINGS

**WL 738**

PREVENTS CORROSION	MAX TEMP 400°F / 204°C	NET WT 11.3 OZ	NET WT 320g	32% STAINLESS STEEL
QUICK DRY 10 MIN	316L PIGMENT TYPE			

**STAINLESS STEEL COATING**

Formulated with 100% type 316L stainless steel pigment for maximum corrosion resistance on stainless steel, copper and other metals. Dries quickly to a satin sheen. Hardens overnight and cures to optimum strength in several days. Withstands temperatures up to 400°F.

**APPLICATION & PERFORMANCE**

Exhaust and steam pipes, mufflers, radiators, production equipment, engines, furnaces, plumbing fixtures, chemical processing equipment

- Contains stainless steel
- Covers weld discoloration
- Works up to 400°F
- Quick dry formula

SKU	SIZE
SC0738000	12 oz/340 g Aerosol 🇨🇦

## WL 744/745 SYSTEM

### WELDING DEFECT DETECTION SYSTEM - PENETRANT & DEVELOPER

A two-part quality assurance system that detects cracks and defects in metals and non-porous, non-metal parts. Detect and clearly mark even the finest faults in welds, casts and other nonporous materials before they cause product failure or costly breakdowns. Ideal for short run applications or spot-testing large parts, welds, assemblies and more.

#### APPLICATION & PERFORMANCE

Turbine blades, molds, structural beams, pipes

- Easy-to-use 2-step system ensures quality inspections
- Detects and locates cracks and defects in welds, metals, and more
- Requires both Penetrant (WL744) and Developer (WL745)

SKU	SIZE
SC0744000	9 oz/255 g Aerosol - Step 1
SC0745000	7 oz/198 g Aerosol - Step 2

DESIGNED FOR THE MOST SPECIALIZED WELDING MAINTENANCE NEEDS.

## SPRAYON® SYSTEM MAGNETIC CAN HOLDERS

Made of durable, powder-coated steel, these holders not only help you identify the specific product to be used in each application, but put the product right where your workforce needs it most: on or near your valuable equipment.

## EDUCATIONAL POSTERS

Easily located throughout your facility, these posters not only help reinforce and explain the elements of the Sprayon packaging, but they also serve as a reference point for the product attributes that your workforce should consider when applying any product to a piece of equipment.

## KANBAN TAGS

For years, industrial and MRO facilities have been using Kanban to manage their inventory. Kanban Tags indicate when it's time to re-order a product based on lead time so you can effectively manage your inventory levels.

## PRODUCT ID TAGS

Available with adhesive or magnetic backing, these tags adhere to any piece of equipment to identify the specific Sprayon product to be used, eliminating the guesswork that can ruin productivity and ensuring the safety of your workforce.
